I live at [REDACTED] and object to the flood defences due to removal of the healthy trees. This project should have been done with no removal of trees in an area which has a lot of Industries and pollution other countries seem to respect and work with nature where I feel this council does not..

We write further to our email of 22 May 2024 explaining your objection to the Scheme does not meet the requirements of a valid objection as defined in the 2009 Act, as it does not set out your name and address in the text.

You can provide this missing information in writing to the Chief Governance Officer, GFPS Objections, Falkirk Council, The Foundry, 4 Central Boulevard, Central Park, Larbert, FK5 4RU or via email at [objectionsgfps@falkirk.gov.uk](mailto:objectionsgfps@falkirk.gov.uk). Hi, I'm objecting to the existing trees being removed. The plans should've been drawn up with minimal disruption to existing structures.. other countries seem to be able to do this. In an area that were told about flooding (Grangemouth) there has already been the removal of grass and hedges natural resources that will soak up water this was all removed by the council then spend millions on a flood defence, no drains getting cleaned where the flooding occurs. And finally I thought the pumping station in the park was to help push the water to keep it flowing.
