

Material Plan

Material	Represents	Number required	Logistic Requirements	Group Plan
Bean bags	Cement bags or sand bags	6	Bean bags must be carried on the top of the head. If transporting multiple bean bags, they must be stacked one on top of the other for transportation.	
Hoops	Steel sheets	4	Hoop must be transported looped around a limb. No more than one hoop per limb. Limbs are arms and legs; the neck does not count as a limb and hoops must not be placed around the neck.	
Cones	Boulders or stone bricks	5	Cones must be balanced on the palm of a hand to transport. If transporting multiple cones, they must be stacked one on top of the other.	
Skipping ropes	Steel bars or wooden planks	3	Skipping ropes must be used to skip across the hall for transportation. If transporting multiple ropes these must be tied together and still skipped across the hall.
