Dear Sir / Madam,

I am a resident and home owner at [REDACTED], and I am formally logging my objection to the Grangemouth flood protection scheme in this area. I have looked at the proposals (which I feel you are trying to sneak through by not providing adequate information which is easy to find) and I strongly object to any proposed flood defence work in my area. I have just recently paid a large sum of hard-earned money to have my back garden professionally landscaped including the fence that you propose to remove and replace with a wall. This will inevitably cause damage to my newly laid porcelain slabs which are installed right up to the fence line. We also have our family pet buried in the garden right at the fence line which you would be disturbing when digging foundations for the new wall. Furthermore, I do not wish for the trees to be cut down removing privacy and bird life. There is absolutely no chance that I will be granting anyone access to my property to cause this unnecessary, waste of money disruption.

Please acknowledge this formal objection by way of return email ASAP (and before the deadline day for submitting objections).

Regards,

[REDACTED]
