To Whom It May Concern

This is to lodge our objections in regards with the planned flood defenses that Falkirk Council has proposed to us that affects the below properties

[REDACTED]

- 1- Flood gates going to on our premises which will affect how we get access to our houses and work!
- 2- Flood defense wall going across the center of the yard!
- 3- There will be no protection for all the above if there was ever a flood as the way the plans look our property is boxed in with flood defenses!
- 4- We do understand why the Flood prevention Scheme is being put in place. However we don't agree with the above properties not being fully protected!

This Objection is for all properties on our land

Regards
